Welcome from Gerry Donaldson

9:10 -9:30

Mea Wang:

- **Iverson Exam** – occurred on May 27, 2014 from 9:30-11:30 am @ high schools in Calgary
- Number of students participating is dropping in Calgary and Edmonton is getting more than 2X that of Calgary for participation. This year Western Canada's students did very well.
- **Technovation Challenge** – 12-week program instituted by Silicon Valley. Restricted only to female students. Groups of 3-4 are matched with mentors in the industry. Using MIT App Inventor (similar to Scratch), the students develop their own android app and pitch it in a regional competition.
